PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building 3 end-to-end full-stack applications using Spring Boot microservices, API Gateway, and Eureka service discovery. Skilled in designing secure REST APIs with JWT and OAuth2, implementing Spring Security (RBAC), and building responsive frontends with React.js and Angular. Experienced with MySQL and PostgreSQL via Spring Data JPA/Hibernate, and validated application quality with JUnit 5, Mockito (up to 85% coverage), and structured manual testing (STLC). Strong foundation in OOP, multithreading, data structures, and Agile/SDLC practices; MSc Computer Science, Pune.

TECHNICAL SKILLS

Languages: Java 8/11, JavaScript (ES6), SQL, HTML5, CSS3

Frameworks & Libraries: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, React.js, Angular

Architecture: Microservices, REST API Design, API Gateway, Eureka Server, MVC, DAO

Security: JWT Authentication, OAuth2, Role-Based Access Control (RBAC), Spring Security

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code, Jira

Testing: JUnit 5, Mockito, API Testing (Postman), Manual Testing, Test Case Design, STLC

Core Concepts: OOP, Multithreading, Exception Handling, Collections Framework, SDLC, Agile, Data Structures & Problem Solving

KEY PROJECTS

EduManage — Institute Management System | *Java 11, Spring Boot, Microservices, API Gateway, Eureka, Spring Security, Spring Data JPA, MySQL, React.js, JWT, Maven*
GitHub: <https://github.com/Suyash-gitlab/EduManage>

- Architected a full-stack institute management system with 3 independent microservices (Admin, Trainer, Student) connected via API Gateway and Eureka Service Discovery, replacing manual institute processes with an automated workflow for batch allocation, attendance, and grading.
- Developed 15+ secure RESTful APIs in Spring Boot, enforcing JWT authentication and Role-Based Access Control (RBAC) via Spring Security across Admin, Trainer, and Student roles with scoped permissions.
- Designed a normalized MySQL schema with Spring Data JPA supporting CRUD operations across 8+ entities; validated all API flows end-to-end using Postman and executed manual test cases covering functional, regression, and role-access scenarios.

AgreeXchange — Agriculture Marketplace Platform | *Java 8, Spring Boot, Hibernate/JPA, MySQL, Angular, JWT, REST API, Maven*
GitHub: <https://github.com/Suyash-gitlab/AgreeXchange>

- Built a full-stack agriculture marketplace supporting 3 user roles (Farmer, Agency, Admin) by engineering a Spring Boot + Hibernate/JPA backend with 12+ RESTful API endpoints and an Angular frontend secured with JWT-based role access control, streamlining trade coordination between farmers and agencies.
- Designed a normalized MySQL relational schema with 6 tables and implemented a modular, microservice-ready Maven project structure to support future service decomposition.
- Performed end-to-end manual testing, writing 20+ test cases covering positive, negative, and boundary scenarios; logged and tracked bugs to resolution using a documented STLC process.

Inventory & Order Management System | *Java 8, Spring Boot, Hibernate, MySQL, React.js, JWT, Maven, JUnit 5, Mockito*
GitHub: <https://github.com/Suyash-gitlab/E-commerce-Website-Product-Catalog-Ordering-System>

- Engineered a secure inventory and product catalog system handling 500+ product records across 3 supplier categories, using a Spring Boot + Hibernate backend with JWT-based role access (Admin/User) and real-time low-stock alert triggers.
- Validated core business logic using JUnit 5 and Mockito, achieving 85% code coverage; managed the dependency lifecycle with Maven to ensure reproducible builds aligned with SDLC best practices.
- Designed and executed manual test cases for inventory CRUD operations, role-based access flows, and alert triggers, identifying and resolving 8 critical bugs prior to release through structured bug reporting.

EDUCATION

Master of Science, Computer Science — Samarth College of Computer Science, Belhe

August 2024 – June 2026 | 74.20%

Bachelor of Science, Computer Science — Padmashri Vikhe Patil College, Pravaranagar

August 2021 – June 2024 | 72.86%

HSC — Sharda Junior College, Rahata

August 2019 – March 2021 | 76.20%

SSC — Sharda Vidya Mandir, Rahata

August 2018 – June 2019 | 71.20%

CERTIFICATIONS & TRAINING

Full Stack Java Development — Fortune Cloud Technology | 2024 – 2025

Core Java, Java 8/11, Spring Boot, Microservices, Spring Security, Hibernate/JPA, React.js, Angular, MySQL, REST APIs, JWT, Manual Testing, Git, Maven, Postman, Agile/SDLC
